Method
Cost per 25 g = listed price × serving grams × 25 ÷ (pack grams × declared protein grams per serving).

MuscleBlaze: 3,999 × 36 × 25 ÷ (1,000 × 25) = ₹143.96.

### What the full package includes

A 12-page report covering ten named variants, with exact-source links, product-specific limitations and questions to verify.

An editable Excel calculator with preserved source data and missing-input handling.

A CSV snapshot for internal analysis, plus the documented calculation method.

### Who it is for

Category teams, nutrition-business founders and retailers who need a starting point for price and label research. It is a fixed research edition, not bespoke consulting or a clinical supplement selection service.

### Price and purchase

The Topmate base price is ₹4,999. Platform fees, applicable taxes or optional add-ons may change the final amount. Review the complete checkout total and deselect unwanted optional add-ons before paying.
